The recommendations of the Professional Committee will be submitted to the EVPAA and presented to the Unit Preparatory Committee by the Head of Unit.
- C. In a new appointment, the first deliberation (subsection A above) may take place in a subcommittee authorized by the Unit Preparatory Committee, but the Head of Unit must receive the EVPAA's approval to continue the process (second deliberation as set out in subsection F).

- D. In processes for granting tenure to a Professor or an Associate Professor or for promotion to the rank of Senior Lecturer, within two years of the first appointment to the Technion, one may use the letters submitted in the appointment process.
- E. Concurrent with sending out inquiries to referees, the Head of Unit will pass on the referees' particulars to the EVPAA, including of those to whom preliminary contact letters have been sent out.
- F. After receipt of the letters and gathering any additional material the Head of Unit will convene the Committee (second deliberation). The majority required for an affirmative decision will be according to the provisions of Sections 34.1.4 and 34.1.5 above. At the end of the voting and supplementary consultation, the Head of Unit will decide whether to pass on the decision to the EVPAA as is or that new information or opinions presented in the supplementary consultation require obtaining responses from the members of the committee or the convening of the committee for further deliberation.
- G. The Head of Unit will submit to the EVPAA the Committee's recommendation (be it affirmative or negative) together with a detailed transcript of the deliberations (after the Committee members were allowed to review and comment on it). The transcript will also note the objectors' opinions and arguments and include the summary of the Professional Committee (if any was set up), correspondence with referees, points considered in the supplementary consultation and any other relevant material.
- H. When in a deliberation of the Unit Preparatory Committee there is not a majority for granting tenure to or renewing the appointment of a tenure-track staff member, the Head of Unit will submit to the EVPAA the Committee's recommendation together with the relevant material (subsection G above). The EVPAA will meet with the staff member along with the Head of Unit and member(s) from the Unit Preparatory Committee, in accordance with the hearing procedure. The decision of the Unit Preparatory Committee and a summary of the hearing will be passed on to the Standing Committee, which will deliberate and reach a final decision on the matter.

### **35.3 Handling the Recommendation of the Unit Preparatory Committee by the EVPAA and the Senate Preparatory Committee**

**35.3.1** The Senate Preparatory Committee will examine nominations for appointment, promotion or granting of tenure, submitted by the Unit Preparatory Committee.

- A. If the Senate Preparatory Committee finds that the file is ready for continuing the appointment, promotion or tenure process, the EVPAA will pass on the file to the Standing Committee Appointment and Promotion of Academic Staff along with the comments of the members of the Senate Preparatory Committee with whom he consulted.
- B. If the Senate Preparatory Committee finds reason for recommending to the unit to consider halting the process (if it is of the opinion that the candidate is not suited for the appointment or promotion or for tenure, for the time being), or to make supplementations to the file before it is passed on to the Standing Committee, the EVPAA will notify the Head of Unit to that effect. The Head of Unit will consult with the Unit Preparatory Committee and act in one of two ways: (1) submit to the EVPAA an updated file including his written response to the comments of the Preparatory Committee and the supplementations (if there are any); in this case, the EVPAA will pass on the file to the Standing Committee Appointment and Promotion of Academic Staff; or (2) notify the EVPAA in writing that he is withdrawing the file and halting the process; in this case, the time limitation for initiative renewal will not apply (Section 35.6).

### **35.3.2 Academic Staff Members at Jacobs Institute**

The processes for appointment, promotion and grant of conditional tenure will be carried out through the Director of the Jacobs Institute, the Head of the Jacobs Program at the Technion and the Jacobs Institute Preparatory Committee, as set out in Appendix 1 to the Academic Regulations.

### **35.3.3 Expedited Processes**

When a recommendation for a candidate's appointment/promotion to the rank of Lecturer or Senior Lecturer is received from the unit concerned, the Senate Preparatory Committee may decide on behalf of the Senate (instead of the Standing Committee) on the appointment or the promotion. In such a case, the letter of appointment will be issued signed by the EVPAA. In the event the Senate Preparatory Committee has decided not to approve an expedited process, the candidate's file will be transferred for continued handling by the Standing Committee.

## **35.4 Handling by the Professional Committee**

The Professional Committee will deliberate over the candidate and issue a detailed written report on the deliberation. The Committee Chairman will forward in writing the Committee's reasoned recommendation to the EVPAA. When the recommendation is not unanimous, also the reasoned opinion of the minority will be communicated in writing.

## **35.5 Handling by the Standing Committee Appointment and Promotion of Academic Staff**

**35.5.1** The EVPAA will present the proposals for appointment, promotion or granting of tenure to the Standing Committee. The Standing Committee will examine the material submitted and make a decision on behalf of the Senate. It may turn to the Senate for additional information, including more referees. The Committee may appoint a Professional Committee in respect of a file directly passed on to it without a Professional Committee.

### **35.5.2 Affirmative Recommendation**

If an affirmative recommendation is passed by the Standing Committee, notice thereof will be communicated by e-mail to all the professors. Every professor, except an elected member of the Standing Committee for Appointment and Promotion of Academic Staff, may notify the Standing Committee Chairman of an objection within five working days from receipt of the notice.

### **35.5.3 Further Deliberation and Negative Decision**

- A. When it becomes apparent that a majority will not be secured for an affirmative decision in a deliberation on granting of tenure or appointment extension, and that a negative decision will lead to the cessation of employment of the academic staff member concerned, the deliberation will be halted. The academic staff member whose matter is being deliberated in the Committee will be called together with the Head of Unit to a meeting with the EVPAA and two elected members of the Standing Committee, in accordance with the hearing procedure. A written report on the meeting will be given to the staff member, Head of Unit and Standing Committee members. The Head of Unit or his representative will be called to appear before the Committee, and will be allowed to be accompanied by up to three Technion staff members. After hearing the guests' explanations and reading the report on the meeting, the Committee will make a final decision on the matter. In the event of a negative decision following further deliberation, a reasoned notification thereof will be given to the Head of Unit and the academic staff member.
- B. When it becomes apparent that a majority will not be secured for an affirmative decision, aside from that stated in subsection A above, the Chairman will halt the deliberation and the EVPAA

will give a reasoned notice thereof to the Head of Unit and ask him to participate in further deliberation on the matter. Prior to further deliberation, the Head of Unit will hold (except in the case of a new appointment) a meeting with the candidate, in accordance with a procedure to be laid down by the EVPAA, and consult with members of the Unit Preparatory Committee. The Head of Unit or his representative will appear at the additional deliberation session, and will be allowed to bring along up to three accompanying Technion staff members. The Committee's decision will be final.

#### **35.5.4 Objection to Affirmative Decision**

- A. In the event one or two professors object to the Standing Committee's decision, the Committee will hold another deliberation on the matter at its next meeting, with the participation of the objector(s). The majority required for accepting the objection is two thirds of the Committee members present at the meeting. If the objection is not accepted, the decision will be final.
- B. In the event three or more professors object to the Standing Committee's decision, their objection will be referred for deliberation to the Special Appeals Committee, attended by the objector(s). The majority required for accepting the objection is two thirds of the Committee members present at the meeting. If the objection is not accepted, the decision will be final.
- C. If the Standing Committee or the Special Appeals Committee has not dismissed the objection, the Chairman will halt the deliberation. The academic staff member whose matter is being deliberated will be called, together with the Head of Unit concerned, to a meeting with the EVPAA and two members of the appropriate committee to be selected by the Chairman. The content of this meeting will be reported to the Committee at a deliberation to be held at another meeting. Alternatively, the academic staff member who so desires, will be allowed to appear and present his case directly before the appropriate committee in the additional deliberation. The decision in the additional deliberation will be final.

#### **35.5.5 Letter of Appointment and Notification**

If an affirmative decision was passed by the Standing Committee without objection, or after dismissal of the objection by the appropriate committee, and the duration of the appointment was determined, a letter of appointment will be issued, signed by the President. A notification thereof will be sent to the members of the Council by the Senior Executive Vice President, and an announcement will be made at the Assembly.

#### **35.6 Renewal of Initiative**

In case of re-nomination for promotion or tenure after a similar nomination was rejected, the candidate's previous file will be presented at the deliberations (except the deliberations of a Professional Committee – if set up).

- A. If the nomination is for promotion to Professor, the initiative may be renewed after at least three years from the date of the final decision for rejection by the Standing Committee for Appointment and Promotion of Academic Staff, except in the case of an initiative renewal accompanied by a granting of tenure initiative (subject to subsection D below). An initiative renewal request made before three years have elapsed from the rejection date will be submitted for approval by the Senate Preparatory Committee in an expanded composition (Section 34.4.3).
- B. If the nomination is for promotion to Associate Professor, the initiative may be renewed after at least two years from the date of final rejection by the Standing Committee for Appointment and Promotion of Academic Staff, except in the case of an initiative renewal accompanied by a granting of tenure initiative (subject to subsection D below). An initiative renewal request made

before two years have elapsed from the rejection date will be submitted for approval by the Senate Preparatory Committee in an expanded composition (Section 34.4.3).

- C. When the nomination is for granting of tenure, the initiative may be renewed after at least one year from the rejection date, provided the academic staff member's appointment is in force on the initiative renewal date.
- D. The initiative renewal in respect of an academic staff member whose employment has been terminated due to non-granting of tenure or non-extension of appointment will take place at least three years after the date of the final decision in his matter by the Standing Committee for Appointment and Promotion of Academic Staff. The new appointment will be approved only with tenure. When dealing with an appointment a second time, a Professional Committee will be appointed and the previous file will be brought before the Senate Preparatory Committee and the Standing Committee.

### **35.7 Routine Review**

The Unit Preparatory Committee will review the suitability of an Associate Professor for promotion once in six years at the latest from the date of the last deliberation on his matter. The Unit Preparatory Committee will review the suitability of a tenured Senior Lecturer for promotion once in three years at the latest from the date of the last deliberation on his matter. The review will be conducted based on the curriculum vitae, list of publications and other material required.

The conclusions of the Unit Preparatory Committee's review will be submitted for approval by the Senate Preparatory Committee, along with all the material that was collected, including the transcript of the unit's deliberations.
